TO

VOLUME THE FIFTH.

A

PAGE

Abernethy's, Mr., surgical lectures at Bartholomew's ...5, 65, 97, 129, 161, 193, 225, 289, 321, 353, 453, 459
——— and The Lancet 113
——— application for an Injunction against The Lancet, report of, at full .....378—385
Abscesses, chronic, their nature, &c. described 261
——— lumbar, explained 289
——— treatment of..... 290
——— time best adapted for puncturing..... 293
——— fistulæ caused by..... ib.
Absorptions, their varieties, &c. 460
——— interstitial, described 461
——— their degrees and stages..... 462
Affections, acute and sub-acute, described 37
——— their predisposing and exciting causes explained .... ib.
All in the dark at Bartholomew's 141
——— the Farce of 144
American Medical Society, prizes of..... 474
Anatomy and Body-snatching, letter on 313
Anasarca during pregnancy, case of 53
Aneurism popliteal, case of..... 315
Anthrax, why so called, its nature, &c..... 454
Apothecaries' Company *v.* College of Physicians..... 317
——— notice of, to students 318
——— act, important trial of 346
Aorta, rupture of, case on 471
Armstrong's, Dr., lectures on medicine....37, 72, 103, 136, 107, 231, 262, 294, 326, 350.

B

PAGE

Bartholomew's Hospital and its Dressers, letter on 345
Bell's, Mr. C., letter to the Governors of Middlesex Hospital, review of 274, 301
Bertin, M., on Diseases of the Heart, review of 237
Biliary Canals, case of obliteration of..... 306
Bladder, disease of, treated with buchu leaves 46
Boils, common, their nature, &c. 325
Brain, inflammation of, described 295
——— remedial treatment of, 296-327
——— symptoms of in children, 298-365
——— morbid anatomy of, described 300
——— hydrocephalus internus, nature of..... 326
——— venous congestion of, described ..... ib.
——— organic diseases of, their nature..... ib.
——— utility of blood-letting demonstrated..... 328
——— value of purgatives in cases of..... 329
——— the kind of purgatives to be used ..... ib.
——— regulation of temperature, its value 330
——— diet, proper 331
——— its prognosis described .. 332
Brodie's, Mr. introductory lecture 20

C

Carbuncles, their nature, &c.... 353
Cephalagia, intermittent quotidian, case of 101

PAGE

Chemistry, paper on..... 339
Cholera morbus, an account of its progress to Europe 470
Chronic abcesses, their nature, &c. 261
Clinical observations on Medicine and Surgery, by M. Janson.... 212
Cicatrization, process of, described 463
Cornaro, anecdote of, related by Mr. Abernethy 101
Custance's, Mr., Kidderminster, letter on medical jurisprudence 119

D

Delphic, Professor, on Celsus' operation for stone 117
Diet and Digestion, Thackrah's work on 333
Dropsies, Venables on..... 368

E

Eye, medullary sarcoma of, case of 181
Erysipelas, its character, &c..... 322
——— treatment of 323
——— its influence upon the digestive organs 324

F

Farunculus, or Boil, nature of .. 325
Fevers, their varieties and causes of.....38, 104, 194
Fever, common congestive, its nature, &c. 39, 136
——— its effect on the brain, heart, liver, &c..... 41
——— its diagnosis and direct causes explained 41
——— post mortem appearances of..... 42
——— remedial treatment of .. 43
——— medical treatment of..72, 109
——— regimenal ditto 75, 110
——— mental ditto.....75, 111
——— second, or intermediate cause of, explained..... 77
——— its treatment. .. 78
——— third form of, described 79
——— treatment of..... 80
——— arising from depression, explained 104
——— from stimulation .. 105
——— irritants, their varieties, &c..... 106
———common simple, described 107

PAGE

Fever, arising from general and local simple excitement 108
——— congestive, its predisposing causes, &c. 138
——— arising from sexual, or general debility..... 139
——— acquired predisposition ..... ib.
——— hereditary ditto 198
——— remote exciting causes of, explained ..... ib.
Foreign Department; surgical operations and physiological experiments of Continental Practitioners..50, 86, 115, 180, 208, 244, 277, 306, 341, 376, 470.
Forbes on the Stethoscope, review of.....144, 169
Foot, case of laceration of its integuments 483
Fungus, metastasis of an extraordinary one..... 44

G

Gaitskell's Mr. case, Castigator on 283
Granulation, process of, described 234
Green's, Mr. Introductory Lecture at St. Thomas's..... 27
——— and his anatomical students, letter, on 312
Gun-shot wound in the throat, case of..... 61
Gutarie's, Mr. Introductory Lecture 14
Guy's Hospital, reports of....57, 89, 121, 217, 253, 317, 348, 380, 480.
Greasy Poultice, method of making 166

H

Headington's, Mr. Introductory Lecture 34
Hectic Fever, described..... 9
——— its influence on the system..... 11
——— treatment of..... ib.
Hernia, strangulated, case of, cured by the warm bath and taxis 381
Hip Joint, operations of ..184, 244
Hole and Corner doings..... 62
Hospital Reports....57, 89, 121, 217, 253, 286, 316, 348, 380, 477.
Hot-air Bath, description of.... 81
Hydrophobia, cases of, and remarks on..... 86
——— remarkable case of cured 344

PAGE

Hydrocephalus internus, its nature explained 326
Hydrocianic acid, chemical means of detecting its presence..... 50
——— effects of on tape worm 277
——— its inutility 55
Inflammatory symptomatic fever, its nature 6
——— ——— effect of, upon the nerves..... 7
——— remedial treatment of ib.

I

Inflammation, its varieties described 129
——— its characteristics 130
——— phlegmonous, explained 132
——— treatment of..... 133
——— effects of cold, in cases of 134
——— utility of poultices in .. 135
——— nature of its abscesses 163
——— second termination of, described 161
——— surgical treatment of .. 165
——— mortification, arising from 167
——— chronic, described 168
——— its effects upon the system..... 193
——— treatment of..... 194
——— effects of counter irritation upon..... 195
——— common, its leading phenomena considered..... ib.
——— active and passive, described 231
——— effects of 232
——— effusions of, simple, adhesive, and suppurative, explained 233
——— ulceration produced by 234
——— mortification caused by 235
——— remote effects of, described ..... ib.
——— of the brain and its membranes, described..... 263
——— its diagnosis, &c..... 264
——— indications of, direct and indirect 265
——— irritative, its nature, &c. 321
——— treatment of..... 322
——— sub-acute, in children, described 364
——— value of purgatives.... 365
——— danger of administering calomel ..... ib.
——— caution required when given 366

PAGE

Inflammation, effects of opium in cases of 368
——— marasmus described .. ib.
Influence of local diseases upon the system..... 5
——— their nature, &c. 6
——— ——— remedial treatment of 7
Intermittent fever, its nature, &c. 65
——— remedial treatment of 66
Introductory Lectures of
Mr. Abernethy 5
— Guthrie 14
— Brodie..... 20
— Green 27
— Headington 34
Dr. Armstrong 353
Iodine, effects of, on the mammary glands 376

L

Letters to the Editor on Medical Abuses.... 83-4, 118, 119, 191, 252, 278, 312, 345.
Lizars' Anatomical Plates, notice of..... 115
Local diseases, their nature and character 97
——— influence upon the system..... 98
——— variety of cases, illustrative of 100
——— treatment of..... 103
London Hospital, letter on its abuses..... 345
Lumbar abscesses, their nature, &c. 289
——— treatment of 290

M

Macilwain on Strictures of the Urethra, review of 463
Maiden's, W., shaft story, Castigator on 286
Menstruation by the breasts, case of..... 377
Middlesex Hospital, reports of.. 60, 93, 123, 255, 349, 482.
Mortification, its true meaning defined 455
——— resulting from cold, its treatment..... 456
——— affecting the ancle, case of..... 458
——— of the toes in old people explained 459

PAGE

N

Nerves, fifth pair of, case of their disorganization 52
——— series of experiments on their functions, by M. Magendie..... 473
Neuralgia, case of, cured by oil of turpentine..... 115

O

Œdema, its character and influences 459
——— treatment of..... 460
O'Halloran on Ophthalmia, review of 261
Organic Remains, in Sussex, an account of 380

P

Parisian Medical School, lectures at..... 348
Phlegmasia dolens, remarks on, by M. Velpeau 343
Phrenological Society, meeting of 207
Poisoning by mushrooms, case of..... 348
Pollenine, its nature, &c. 52
Poultice Greasy, method of making 160

Q

Quina, sulphate of, observations on its properties, by Dr. Barker, Dublin..... 466

R

Review of Forbes on the Stethoscope..... 144, 169
——— Turner's Outlines of a Medico Chirurgical Education 202
——— Bertin on Diseases of the Heart 237
——— O'Halloran on Ophthalmia 261
——— Mr. Charles Bell's Letter to the Governors of Middlesex Hospital..... 274, 301
——— Thackrah on Diet and Digestion 333
——— Venables on Dropsies.... 368
——— Macilwain on Strictures of the Urethra 463

S

Saint Thomas's Hospital, Reports of.. 59, 92, 123, 219, 267, 317, 351, 382, 477.

PAGE

Scrotum, case of malignant ulceration of, and operation for .. 382
Soda, sub-carbonate of, paper on its efficacy in bronchocele 472
Spinal cord, case of compression of..... 382
Splenic vein, rupture of 310
Stone, results of the recto vesical, operation for..... 52
——— operation for, by M. Cliver, on himself 376
Stricture, with chronic inflammation, case of 381
Surgical Students and the Materia Medica, letter on 311
Sympathetic irritative fevers, produced by compound fracture.. 11
——— their nature, &c..... ib.
——— remedial treatment of 12
——— their resemblance to inflammatory fever shown 13
Synoptical table, showing the properties of the Vegetable principles, and of the alcaloids recently discovered 208

T

Testicle fungoid, case of..... 89
Tetanus, its nature and character 68
——— treatment of..... 69
Thackrah on Diet and Digestion, review of..... 333
Tumours, pendulous, the varieties described 225
——— genus sarcoma, their nature..... 226
——— common vascular, described ..... ib.
——— adipose sarcoma..... ib.
——— pancreatic sarcoma.... 227
——— cystic, or cellular sarcoma 228
——— mammary sarcoma .... ib.
——— pulpy, or medullary ditto ib.
——— tuberculated sarcoma.. 229
——— carcinomatous ditto.... 230
——— encysted ditto 257
——— general treatment of all the varieties 260
Turner's Outlines of a system of Medico-Chirurgical Education, review of..... 202
Tyrrell, Mr., otherwise "Simon Pure," his bare-faced piracies of The Lancet 82
——— letter upon 83
——— dissection of..... 112, 213

PAGE.

V

Vagina, case of complete closure of, after labour..... 277, 343
Venables on Dropsy, review of.. 368
Viscera, case of malformation of thoracic and abdominal 44

U

Upas, or Ticunas poison, chemical analysis of 339

PAGE

Uterus and Vagina, extraordinary case of a double one, with remarks on, by M. Cassan.... 341

W

Westminster Hospital, Reports of 62, 94, 127, 220, 286, 316.
———— Clinical lecture at, by Sir A. Carlisle..... 126
